Re: NextNav, LLC
Permitted Oral *Ex Parte* Presentation
WT Docket No. 07-114

Dear Ms. Dortch:

On June 26, 2013, representatives of NextNav, LLC (“NextNav”) met with representatives of the Commission staff to discuss the indoor location capabilities of NextNav’s position location service. Participating in the meeting on behalf of the Commission’s Public Safety & Homeland Security Bureau (“PSHSB”) were David Turetsky, Bureau Chief; David Furth, Deputy Bureau Chief; Nicole McGinnis, Deputy Bureau Chief; David Siehl, Senior Attorney; and Zenji Nakazawa, Deputy Chief of the Policy and Licensing Division. Participating in the meeting on behalf of NextNav were Gary Parsons, its CEO, and Ganesh Pattabiraman, its President.

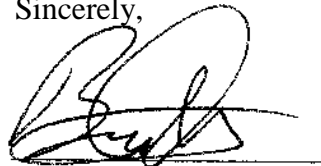

During the meeting, the participants discussed the results of comprehensive indoor location accuracy tests that were conducted in December 2012 in the San Francisco Bay Area under the direction of the Commission’s Communications Security, Reliability, and Interoperability Council (“CSRIC III”). The NextNav representatives noted significant areas of industry consensus through the CSRIC III process regarding the appropriate testing methods for both outdoor and indoor location technologies, including the sufficiency of statistically representative testing and the use of Key Performance Indicators in lieu of ongoing repetitive compliance test requirements. Other aspects and findings from the CSRIC III test bed process were also discussed, including the public safety’s summary of requirements relative to reliability, yield, uncertainty metrics, as well as horizontal and vertical accuracy, noting performance levels

which have been demonstrated currently versus future progress needed to meet the expressed needs of the public safety community.

In addition, the parties discussed the continued deployment of NextNav's position location network. NextNav is working with carriers, equipment vendors, and standardization bodies to ensure that its service will be available expeditiously for use by wireless carriers and the public safety community.

Thank you for your attention to this matter. Please contact the undersigned if you have any questions.

Sincerely,

A handwritten signature in black ink, appearing to read "Bruce A. Olcott", written over a horizontal line.

Bruce A. Olcott
